

Compass rose showing North (N), South (S), East (E), and West (W). Below the compass rose is a scale bar labeled "Feet" with markings for 0, 500, and 1,000.

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Low Gulf Datum (MLG).

Mile markers on the G.I.W.W. are shown in one mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2023 Aerial Photography data source: NAIP

Reference is N.O.A.A. Navigation Chart No. 11331.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

 US Army Corps of Engineers District: CEMVN	Disclaimer: Liability. The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the Corps of Engineers does not warrant the accuracy of the data, nor does it assume any responsibility for the results of the application of the data to other than its intended purpose. Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, sedimentation, and rising and falling potential for change in the hydrological conditions which develop after the date of collection. The Corps of Engineers does not assume any responsibility for the hydrological conditions which develop after the date of collection. Users of this data should not rely solely upon this internal use. Prudent managers should not rely solely upon this
