

VICINITY MAP

LEGEND

- Federal Navigation Channel
- Federal Navigation Center Line
- As-built Pipeline/Cable
- Unconfirmed Pipeline/Cable
- Project Depth Contour
- Cable Area
- Placement Area
- Anchorage Area
- Obstruction Point
- Wrecks-Submerged
- Borrow Area
- Shoalest Sounding**
- Beacon, General
- Red Navigation Buoy
- Green Navigation Buoy

Gage Reading:	NAVD
Sea Conditions:	CALM
Vessel Name:	DON JON
Survey Type:	CONDITION
Sounding Frequency***:	HIGH

Feet: 0 500 1,000 1,500 2,000

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Low Gulf Datum (MLG).

Distances on the Bayou Lafourche are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE survey crews.

2017 Aerial Photography data source: NAIP, 1998 DOQQ shown in transparent green.

Reference is N.O.A.A. Navigation Chart No. 11365 and 11346.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

DISCLAIMER

Access Constraints: The United States Government furnishes this data and makes no warranty, expressed or implied, as to its accuracy, completeness, timeliness, or rights to use. Persons using this data assume all responsibility for the misinterpretation or misuse of the information and the data furnished. The United States shall be held harmless from any liability resulting from improper or incorrect use of the data. Any risk associated with the use of this data will be assumed by the recipient. By receiving this data, the recipient fully agrees not to represent these data to anyone as other than data furnished by the Government. Therefore the recipient shall indemnify the Government and save it harmless from any demands or actions resulting from the use of these data. The recipient is granted the right to use this data provided the recipient shall not assign, sell, lease or otherwise transfer these data to others without also transferring this Disclaimer.

Distribution Liability: The data represents the results of data collection and analysis performed by the Corps of Engineers activity and indicates the general existing conditions. As such it is only valid for its intended use, content, time and accuracy. The Government assumes no liability for any modification of any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to environmental processes occurring between the survey activity and natural shoaling and scouring processes. The U. S. Army Corps of Engineers assumes no responsibility for changes in the hydrographical conditions which transpire after the date of publication. This data is intended for U. S. Army Corps of Engineers' internal use. Private and commercial use may only be granted by a written agreement.
